## CHERAN'S T REX

### 3 Station Auto Fusing Machine

#### TECHNICAL SPECIFICATION

MODEL	CRAF 2030
PLATEN SIZE	20" X 30"
HEATER	3.5 KW/ 15 A VPS
TEMPERATURE	220 C
AIR PRESSURE	0.8 BAR
AIR CONSUMPTION	4 CFM/ MINUTE AT 0.8 BAR
NUMBER OF HEATER BED	1
NO OF BOTTOM BED	3

#### FEATURES

- HMI for easy interaction with the machine
- PLC controller for precise temperature & timing
- Fast continuous production
- Normal, semi auto & full auto modes for easy operation
- Suitable for sublimation & fusing.
- Robust constructions.
- Real time monitoring with shift wise & batch wise production data
- Pre settings for batch quantity can be loaded immediately for production
- Safety frame provided to protect operators
- Reduces labor cost & electricity considerably
- Automatic double stroke operation & production monitoring
- Easy handling & maintenance
- Automatic service intimation system available
- Provision for problem display in case of any failure in machine
- Elegant design
